Aims and Scope

Association of Radiology and Oncology and Co-chairs invite you to participate at the 5th Conference on Experimental and Translational Oncology which will be held in Kranjska gora, Slovenia, March 26-30, 2008. The aim of the Conference is to promote the achievements of basic and clinical investigators on mechanisms of tumour development and progression and the introduction of new strategies for detection and treatment of cancer. Lectures, short oral presentations, selected from submitted abstract and poster presentations will cover six major Conference topics:

- Carcinogenesis
- Mechanisms of tumour progression
- Stem cells in cancer
- Tumour markers
- Delivery systems in cancer therapy
- New drugs and therapeutic targets

The Conference is an ideal place for gathering of young prospective scientists with established colleagues, to enforce the collaboration between academic and industrial institutions and to make new contacts between scientists from different European regions.

Co-chairs of the Conference

Tamara Lah, National Institute of Biology, Ljubljana, Slovenia
Gregor Serša, Institute of Oncology, Ljubljana, Slovenia,
